Build base of portfolio:

1. Cover two 6x9 pieces of chipboard with TW-106 (Fern wood grain) on one side and TW-103 Pleased Plaid on the other side.
2. Cover 3/4 x 9 piece of chipboard the same way as step one. This will be the spine.
3. Lay covered pieces (green side up) so that you have a cover, then spine, then cover; all the pieces lined up and flush with each other.
4. Cover the seam of one cover piece and the spine with book binding tape. Wrap around to cover both inside and outside of seam. Do the same with the other seam. The tape will overlap some in the middle.
5. Fold at seams so the Fern Wood grain is on the outside. Make sure tape is holding. This is the base for the portfolio.

1. TW-102 Petaled; cut a 5.25" x 6" piece. With the 6" side vertical, mark 1.5" up from the bottom right corner. Mark 1.5" from the top left corner. Draw a line connecting these two marks and then cut along that diagonal line to create the pocket. Adhere on the left and bottom edges only.
2. TW-135 ruler sticker (about 5.25" long)
3. TW-140 Fresh verse sticker
4. TW-220 Fabric flower and stem
5. TW-220 Small fabric flower and leaf
6. TW-105 Diamond Dust 2.5' x 4.75'; cut notches in top to create tag. Punch hole.
7. TW-135 Date sticker
8. Add twine to top of tag
9. TW-102 Wordy 2.5" x 4.75"; cut notches in top to create tag. Punch hole.
10. TW-135 Calendar and flower sticker
11. Add twine to top of tag
12. Adhere notebook to right side of portfolio.

Booklet:

13. Two 7" x 5" TW-105 Diamond Dust folded in half (one slipped inside the other) to make a booklet. Punch holes along fold (through both pieces) 1" from top and 1" from the bottom.
 14. TW-140 Fresh Verse sticker
 15. TW-135 bird on limb sticker
 16. TW-220 Fabric bird
 17. TW-220 Fabric flower stuck on paper clip.
- Add 1" punched circle (from scrap) to back to secure.

Finish portfolio by stringing 60" piece of twine from the outside into the bottom hole of the booklet and out the top hole. Pull twine through so that the booklet is in the center of the twine. Lay booklet inside the portfolio as shown and then wrap the twine around the spine twice and tie off in a bow on the outside of the spine. (See cover photo)
